Roundtable Discussion

Moderator, David Leverenz, English, University of Florida

English, University of Florida

Moderator, David Leverenz, English, University Discussion will follow each presentation

How should we think about globalization? How are we to imagine "America" as both a lived place and as one name for the active agency related to the experience of globalization? We will address these questions by considering global circulations of commodities. art forms, cultural practices, organisms, and human bodies. Join us for lively discussions on such topics as migration and immigration, international distributions of film, music, media, and intellectual property, epidemics, and global identities.
